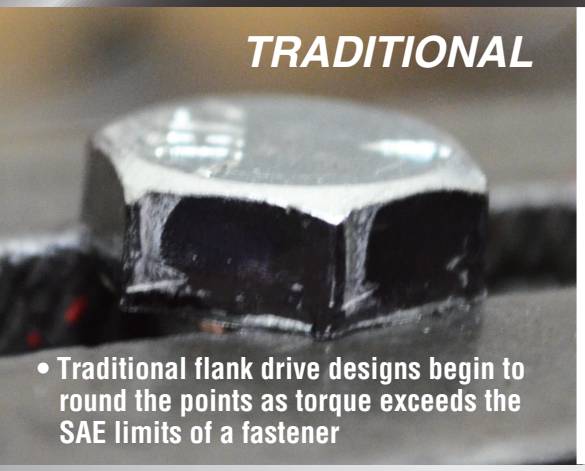
INTRODUCING : FLANK BITE TECHNOLOGY



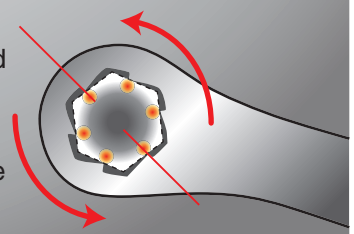
• Traditional flank drive designs begin to round the points as torque exceeds the SAE limits of a fastener

• Flank bite does not depend on the points of a fastener. The more torque is applied, the more it bites into only the sides

• New, Patented Flank Bite Design works on up to an industry leading 90% of stripped bolt heads and rounded lug nuts

• All products made in Taiwan from forged CRO-MO

• Safe for forward tightening of fasteners without damage



★ PATENTED ★ NO.USD570169S

Model No. **7404**

Flank Bite Damaged Lug Nut Socket Set W/ Spinning Protective Sleeves

Sizes: 17mm, 19mm (3/4"), 21mm (13/16") and 22mm lug nut sockets

★ PATENTED ★ NO.USD570169S

Model No. **7411**

11PC 1/2" DR Flank Bite Damaged Fastener Impact Sockets - SAE

SAE

Sizes: 5/16", 3/8", 7/16", 1/2", 9/16", 5/8", 11/16", 3/4", 13/16", 7/8"

Metric

Sizes: 8mm, 10mm, 11mm, 12mm, 13mm, 14mm,15mm, 16mm, 17mm, 19mm

ALSO AVAILABLE IN METRIC Model No. **7411M**

Model No. **7180XL** 8PC Extra Long Damaged Fastener Flank Bite Combination Wrench Set - SAE

SAE

Sizes: 5/16", 3/8", 7/16", 1/2", 9/16", 5/8", 11/16", 3/4"

Metric

Sizes: 8mm, 10mm, 12mm, 13mm, 14mm, 15mm, 17mm, 18mm

ALSO AVAILABLE IN METRIC Model No. **7181XL**
